RE: Supplemental Educational Services available

Dear Parent/Guardian:

Help your child succeed in school! As a result of the federal Elementary and Secondary Education Act (ESEA), your child may be able to receive extra help in the core academic subjects of Mathematics, Science, Social Studies, and Reading/English. You can receive **free** tutoring because Wavecrest Career Academy is identified for improvement and your family meets the income limits under the law.

Wavecrest Career Academy has been designated for corrective action under the *No Child Left Behind Act* (NCLB) because the graduation rate and proficiency in mathematics does not meet the requirements under NCLB and we fell short of the required participation of 95% our students on the Michigan Merit Exam. While holding high expectations for our students is core to our mission, our philosophy is one that embraces all learners, including those who may be struggling socially or academically, and consequently, may not be able to graduate within the time frame established by NCLB. This does not necessarily mean that our students are not achieving, just that they are not graduating in the traditional four-year time frame.

In order to help your child do better in school, you can now choose a **free** tutoring program from the list of approved providers attached. The programs will provide tutoring that is coordinated with what is being taught in school. Each program is different. You will need to review the information for each program and decide which is best for your child.

Think about the answers to these questions to help you decide:

- When and where will the tutoring take place?
- How far is it? *Please note that transportation to the tutor and to your home may not be provided.*
- How often the tutor will meet with your child and how long is each tutoring session?
- What programs, by grade level and subject areas, are provided by that tutor?
- What type of instruction is used (e.g., small group, one-on-one, or computer-based instruction)?
- What are the tutor's qualifications?
- Does this program seem to fit your child's needs?

Included in this letter is a Tutor Selection Form. When you are ready to select a tutor from the list, complete this form and return it to Wavecrest Career Academy by October 7, 2011 for your child(ren) to be eligible to participate. It is important that you select a first, second, and third choice of providers due to limited availability.

If the district receives more applications than there is space available, students will be selected based on academic need. Students who demonstrate the greatest academic need will be offered services first. If your child is not selected to receive tutoring services, you will be notified by mail. If your child is selected to receive services, we will send a confirmation letter to you and the tutor you indicated on your Tutor Selection Form.

The school staff want to help you with this information, so please do not hesitate to contact me at 616-393-7662 with your questions.

Sincerely,

Mark King

Mark E. King
Director
